

Meet Malwarebytes

Malwarebytes is a cybersecurity company that millions worldwide trust. We proactively protect people and businesses against dangerous threats such as malware, ransomware, and exploits that escape detection by traditional antivirus solutions.

Why Malwarebytes?

Best In industry Remediation and Proactive Protection

Malwarebytes was founded on the principle that everyone has the fundamental right to a malware-free existence. Malwarebytes isn't like other security companies. From the very beginning, we've approached the problem of malware differently by focusing on remediation.

With remediation in our DNA, we assume that no solution is 100% effective and that breaches are inevitable. This is why we've focused on being the best at not only finding but also removing known and unknown threats. Our global threat intelligence delivers unmatched threat visibility and informs the Malwarebytes Multi-Vector Protection solution.

Multiple Layers to Break the Attack Chain

Malwarebytes provides Multi-Vector Protection that defends against attacks at every stage. A Single-agent platform reduces agent fatigue and has low-performance impact. Centralized management is offered in the cloud. Malwarebytes multiple layers of static and dynamic (signature-less) protection, include Web protection, application hardening, exploit mitigation, application behavior, payload analysis, anomaly detection machine learning, and ransomware mitigation.

MALWAREBYTES SOLUTIONS

| INCIDENT RESPONSE

Automating Remediation

We can fix what your current solution misses.

| ENDPOINT PROTECTION

Layered Prevention Technologies

Automating Remediation

Be proactive, not just reactive.

Malwarebytes When They Come Under Attack.

- ▶ With 500,000 downloads a day, companies and individuals alike use Malwarebytes to clean up malware missed by others.
- ▶ Malwarebytes is used to remediate over 3 million events per day.
- ▶ Companies know that Multi-Vector Protection is the best approach because no one approach is 100% effective.
- ▶ Malwarebytes is recommended by Microsoft stores to remediate and stop threats.
- ▶ Malwarebytes is also recommended at Apple Genius Bars to remediate and stop threats.

“MALWAREBYTES DELIVERED WHAT IT ADVERTISED. IT WORKS QUIETLY IN THE BACKGROUND AND REQUIRES LITTLE EFFORT. THE MALWAREBYTES TEAM ALSO STANDS BESIDES US TO KEEP US SUCCESSFUL WITH OUR SECURITY OFFERINGS. IT’S A WIN-WIN.”

MANAGING DIRECTOR, I.T. HOW TO

Why You Want to be a Malwarebytes Partner

- ▶ Grow your revenue while lowering your costs.
- ▶ PAYG pricing based on actual usage.
- ▶ Reduce operational overhead.
 - ▶ For MSPs on fixed price engagements with their customers the cost of dealing with a malware outbreak can consume the margin. Malwarebytes reduces, often to zero, the amount of human effort required to clean a PC.
- ▶ Local presence and partnership
 - ▶ Malwarebytes is in all major locations and wants to partner to provide the best possible service to customers.
- ▶ Tiered competitive pricing, with significant margin opportunity.
- ▶ Well known and credible brand.
- ▶ Flexible deployment options.
- ▶ Simple to deploy, manage, and maintain.
- ▶ Cloud-based management platform.
- ▶ Integrated remediation with prevention included to rapidly respond if an endpoint is infected and minimize any impact on the end user.

JOIN TODAY!

There’s never been a better time to become a Malwarebytes MSP partner.
